LIGHTNING RUNS UP FIRE RECORD

Causes Loss of $362,811 in Oil Fields During Month of July Is Report.

Special to The World.

OKLAHOMA CITY, Aug. 9.—Insurance adjusters engaged in settling losses by fire throughout the state during the month of July, different from all other months, have the distinction of having handled a total of $362,811 of the total loss sustained by fire in the state during the month. Insurance adjusters in the state say that the month of July has been the most disastrous to the oil and gas industry of any month in the history of the state. Lightning was the cause of the most destructive fires during the month, according to the report.

The department calls attention to the necessity of the utmost care within a few days and cautions all persons to inspect their property carefully and make every precaution possible for extinguishing fires to prevent their starting.
